MONETARY POLICY, INFLATION AND ECONOMIC GROWTH IN INDONESIA DURING PERIOD 1983 - 2012			
Thesis by: Kartika Thesis Advisor: Prof. Dr.H. Adrimas, SE, MA			
ABSTRACT			
<p><i>Monetary policy is a way of monetary authorities (government and central bank) to control the amount of money supply and interest rate. Interest rate used is BI rate as monetary policy. It will give impact on inflation and economic growth. Inflation and economic growth are two important indicators in an economy. The higher and unstable of inflation it caused by increased of price of goods and services that finally will impact on economy. These researches there are two purposes the first is to know the effect and relationship of interest rate (BI rate) as monetary policy on inflation in Indonesia during period 1983 - 2012, and the second is to know the effect and relationship of interest rate (BI rate) as monetary policy on economic growth in Indonesia during period 1983 - 2012. This research using time series data during 1983 - 2012 that obtained by Statistic Report of Indonesia Bank and World Bank then used Simple Linear Regression with the method is Ordinary Least Squares (OLS). There are two models in this research, the first is to analysis the effect and relationship of interest rate (BI rate) as monetary policy and inflation and the second model is to analysis the effect and relationship of interest rate (BI rate) as monetary policy and economic growth. At the first model the result of this research shows that interest rate (BI rate) as monetary policy has positive and significantly effect on inflation while at the second model shows that interest rate (BI rate) as monetary policy has negative and significantly effect on economic growth in Indonesia</i></p>			
Keywords: Monetary Policy, Inflation, Economic Growth, and Interest Rate			

This thesis has been presented before the examiners in the Thesis Examination and successfully passed the Thesis Examination on October, 17th 2014.

The Abstract has been approved by the advisor and examiners:
